**Title:** Non Traditional Wedding Gown – **Breeze Scriven**

**Gown For:** Wedding Gown

**Location:** Springfield, USA

**Description:**

Our bride asked for a non-traditional wedding dress with mint/teal as the dominant shade and bold purple accents—no pastels. Per her instructions, we built a flat, structured corset and defined the skirt's structure to her specs, then layered it with airy tulle for movement. Vivid violet lace and 3D florals trace the bodice and sweep through the skirt, creating strong contrast against the cool teal base. The result: a modern, statement bridal look—fresh, fearless, and undeniably enchanting.

**Title:** Tangled Lantern – **Emma Ulmer**

**Gown For:** Prom / Grand Ball

**Location:** Pennsylvania

**Description:**

Our client dreamed of a Tangled lantern gown for prom—soft, glowing, and princess-worthy. We initially suggested touches of purple, but she preferred a pure cream palette with gold accents, and we built the design around that vision. The corseted bodice is traced with gilded embroidery and sparkling appliqués, while layers of airy tulle and organza create a lantern-light shimmer as the skirt moves. A draped capelet/veil and scalloped gold hem finish the look. The result is a warm, luminous take on the lantern scene—elegant, romantic, and utterly enchanting for prom night.
